PROGRAM 04

Leading with AI

For leaders whose teams are already using AI, or about to. Brings together our leadership and AI training: using AI well in your own leadership work, and leading a team through adoption. Hands-on with the tools your organisation already uses, such as Microsoft Copilot, ChatGPT or Claude.

> ✓ Every program is tailored to your people, your situations and how your business runs, so treat this as a starting point, not a fixed syllabus.

Who it's for

- Managers in organisations rolling out AI tools
- Leaders who want to use AI in their own work responsibly
- Leadership teams setting expectations for AI use
- Managers whose teams are unsure or worried about AI

What changes

- Leaders prepare 1:1s, feedback and reviews faster with AI
- Teams share clear expectations for responsible use
- Concerns about AI are talked about openly
- Leaders spot where AI can take repetitive work off the team

Sample journey

Part	Module	Practised on the job
1	**AI for Everyday Leadership**	Use AI to prepare for one 1:1 or team meeting this week
2	**Feedback & Reviews with AI**	Draft feedback with AI, then rewrite it in your own voice
3	**Leading a Team Through AI Adoption**	Run a short team conversation about where AI could help, and any concerns
4	**Setting Expectations for Responsible Use**	Agree simple team guidelines for using AI with client and company data

Between sessions: short Elevate Mode scenarios matched to each module.

Ways to run it

One-off
A 2-hour hands-on workshop

Virtual program
Two 1.5-hour sessions over two weeks

In person or blended
Half or full day onsite, alongside AI training for the wider team

What's included

- Discovery call and attendee questionnaire
- Workbook and frameworks
- Elevate Mode practice access
- Post-program summary and impact survey

How pricing works

Quoted after a free consultation, based on group size, number of sessions and format. No cost or obligation.
